

The Honorable Donald Beyer 1119 Longworth House Office Building Washington, DC 20515

The Honorable Grace Napolitano 1610 Longworth House Office Building Washington, DC 20515 The Honorable John Katko 2457 Rayburn House Office Building Washington, DC 20515

Dear Representatives Beyer, Katko, and Napolitano,

The Mental Health Liaison Group (MHLG)- a coalition of national organizations representing consumers, family members, mental health and addiction providers, advocates, and other stakeholders- is writing to express our strong support for the Barriers to Suicide Act of 2019 (H.R. 4309). This vital piece of legislation will create grants for state and local governments to fund nets and barriers on bridges to prevent deaths by suicide.

Suicide is a national public health crisis, affecting millions of Americans each year. The Centers for Disease Control and Prevention (CDC) reported in June 2018 that life expectancy has decreased in the United States as the suicide rate has increased 30 percent over the past 20 years<sup>1</sup>. In 2017, over 47,000 Americans died by suicide making it the 10<sup>th</sup> leading cause of death in the country and the 2<sup>nd</sup> leading cause of death for ages 10-34<sup>2</sup>.

Bridge barriers save lives by giving suicidal individuals and those who care for them something they desperately need – time. This includes time to change their minds, time for someone to intervene, and time to seek help. Research consistently shows that the majority of those averted from a suicide attempt at a bridge do not go on to complete suicide elsewhere or with another method, and overall suicide deaths often decline throughout the surrounding area after bridge barriers are in place<sup>3</sup>.

The establishment of a competitive grant program for states and localities to apply for federal funding to install nets and barriers on bridges at high risk locations is an important step in our nation's overall suicide prevention efforts. Moreover, the MHLG applauds the legislation's inclusion of language calling on the U.S. Comptroller General to study the effectiveness of nets and barriers for structures other than bridges in preventing suicide.

The MHLG thanks you for your leadership and efforts to introduce this critical legislation that will help to prevent deaths by suicide.

Sincerely,
