

# Psychiatric Services Welcomes Your Submissions!

*Psychiatric Services* welcomes high-quality submissions addressing the delivery of mental health services. We encourage broad and diverse viewpoints. A global perspective allows consideration of an expansive range of problems and solutions. We welcome submissions that focus on various populations (e.g., children, adults, underserved) and types of disorders (e.g., addiction, psychosis, trauma). No population or type of disorder is excluded. Submissions are especially welcome in the following areas:

- Integration of psychiatric and general medical care
- Criminal justice and psychiatric services
- Digital and online psychiatric services
- Social determinants of health in psychiatric care
- Implementation strategies
- Impact and alleviation of bias, racism, and health disparities
- Effectiveness of peer support interventions
- Incorporating voices of lived experience in care

*Psychiatric Services*, a monthly journal from the American Psychiatric Association published since 1950, features research reports on issues related to the delivery of mental health services, especially for people with serious mental illness in community-based treatment programs. *Psychiatric Services* recognizes that provision of high-quality care involves collaboration among a variety of professionals, including psychiatrists, psychologists, pharmacists, nurses, social workers, drug and alcohol treatment counselors, economists, policy analysts, and professionals in related systems such as criminal justice and welfare systems. In the mental health field, the current focus on patient-centered, recovery-oriented care and on dissemination of evidence-based practices is transforming service delivery systems at all levels.

Research published in *Psychiatric Services* contributes to this transformation. So far in 2022, our most discussed papers include the following:

**Mental Health Conservatorship Among Homeless People With Serious Mental Illness**

**Addiction Treatment and Telehealth: Review of Efficacy and Provider Insights During the COVID-19 Pandemic**

**The Continuing Decline of Clinical Research on Serious Mental Illnesses at NIMH**

**Prevalence and Sociodemographic Correlates of Unmet Need for Mental Health Counseling Among Adults During the COVID-19 Pandemic**

Editor: Lisa B. Dixon, M.D., M.P.H.

# Psychiatric Services Beyond the Page

## Editor's Choice

These curated collections of recent and seminal research in a given area can be used as a launch point for authors conducting literature reviews and for educators working on course content.

Collections now available at

[ps.psychiatryonline.org/editorschoice](https://ps.psychiatryonline.org/editorschoice):

- Trauma and serious mental illness
- Racial-ethnic disparities in mental health care
- Homelessness and mental health
- The psychiatric workforce shortage
- Adolescent suicide
- Mental health and COVID-19
- Integrated care
- Recovery
- Peer support
- Perinatal psychiatry
- The stigma of addiction
- A stitch in time: early psychosis intervention
- Mental health criminal justice diversion
- Community-based mental health crisis services
- Family members and caregivers

## Podcast

To further extend the reach of *Psychiatric Services* content, Dr. Dixon cohosts the monthly **From Pages to Practice** podcast with early-career psychiatrist Josh Berezin, M.D., M.S., where they discuss how recently published research applies in practice, often inviting authors to join the podcast to discuss their work. (Available on Spotify, Stitcher, iTunes, Google Podcast or at the journal's website at [ps.psychiatryonline.org/podcast](https://ps.psychiatryonline.org/podcast))
